

Anthony Wai 韋頌修

**System Engineer Manager – North Asia, 北亞區技術總監
McAfee, Inc.**

Anthony Wai is the System Engineer Manager in North Asia of McAfee Inc., leading a team of 17 engineers to offer security consultations to McAfee customers in Mainland China, Hong Kong, Taiwan and Korea.

Since joining McAfee in 2003, Anthony has been a trusted advisor to customers, providing professional situation analysis and solutions to enhance their IT security with McAfee's cutting edge solutions against emerging threats in the cyber world. Projects with Hospital Authority and Cathay Pacific Airways in Hong Kong were only some of the important project wins of McAfee that Anthony played an important role.

Anthony brought a diverse and cross-cultural working experience to McAfee from corporations in Canada, USA, and Greater China on various security projects for security infrastructure design and integrated security solutions.

Anthony holds a Bachelor Degree of Computer Science from University of British Columbia in Vancouver, Canada, and is CompTIA Security+ certified.
